

THE BASSANO

BASSANO, ALBERTA, THURSDAY, JUNE 14, 1934

R. A. TRAVIS
INSURANCE OF ALL KINDS
LOANS & COLLECTIONS

VOLUME 17, No. 49

Bassano Will Celebrate Dominion Day, Monday, July 2nd Program will consist of Horse Races, Indian Races, Bucking, Roping, Athletic Events, Opening of Swimming Pool, Carnival Attractions

Work Progressing On Swimming Pool

Piles Are All Placed and Crew is Now Building Walls

After completing the slow and tedious work of driving the piles for the walls of the swimming pool, the work is now progressing rapidly, and will be completed as soon as possible. The official opening of the pool is scheduled for the Dominion Day holiday, Monday, July 2nd. It is expected that it will be in readiness well before that date.

The driving of the piles was a very difficult task. The ground was extremely hard, and it was necessary to dig holes and soften the ground with water.

Movie Company "Shoots" Scenes Near Stevesteille

A company of about twenty actors, actresses, camera men, and assistants, in location near Stevesteille and the Elide Bros. ranch this week "shoots" scenes for a picture being produced by the British Canadian Pictures, Limited, of Calgary.

Neal Hart is in charge of the party, and Miss Barbara Kent is the leading lady. The party spent a day last week near One Tree creek, and in the Bad Lands. They were accompanied by Col. O. T. Goff and P. C. Cross, of Brooks, who assisted them in locating suitable background for filming scenes. Mr. Hart was enthused with the locations, and believes the background picture will be as unique a setting as has ever been filmed. The Elide Bros. ranch affords a typical western cattle ranch setting, and many of the scenes will be "shot" there.

Miss Barbara Kent, an Alberta girl, is originally from Quesbury, but has been in the moving picture in Hollywood for several years. Mr. Hart and Miss Kent are only temporarily connected with the British Canadian Company, it is understood.

The water in the Red Deer river has been so high recently that the ferries were unable to run.

Gem News

GEM, June 13.—C. Douglas, Calgary Normal student, arrived home on Monday evening for the summer holidays.

Mr. and Mrs. Broadfoot were Sunday visitors to Mrs. D. Douglas.

Miss M. Chamberlain, Normal School graduate, is home for the summer holidays.

Mr. and Mrs. Atkins, of Vancouver, are expected to arrive in the Colony on Sunday to spend an extended holiday with their son, our local postmaster, and family.

Mr. Guth, representative of the United Church, holds a weekly service every Sunday evening in the Gem school. Quite a large number attend these interesting services, which must be very gratifying to this young and zealous missionary.

Mrs. and Miss R. Seidridge, accompanied by Mrs. Horne and Mrs. Farquhar, were Friday afternoon callers on Mrs. Keelling.

Several of the Gem farmers are having a picnic at Gem for Mrs. Horne.

Mrs. Small and children, with Miss Saunders (recently arrived from Redhead), were welcome visitors to Mrs. Maguire on Friday afternoon.

Mrs. Farquhar, sister of Mrs. Horne, plans to return to the States in a few days. She will have the company of Mrs. Horne, who intends to spend a few days in the States, combining business with pleasure.

Spoke Robinson is a visitor in the Colony, also Harold Kneiser, of Husar.

Mrs. Archibald, of E. Kneiser, is housekeeper for Fletcher Williamson.

Mr. Dodd was a business visitor to Calgary recently.

Miss R. Vint is expected in the Colony during the summer holidays, she will be the guest of her sister and other friends.

It is rumoured that we are to have a new house. We will all be pleased to welcome L. E. Fryberger. Shortly was always popular.

Mr. and Mrs. Turner, who recently arrived in the Colony from the Isle of Wight, are now with Mr. and Mrs. Atkins.

Miss Keelling returned home from Blindfold a few days ago after enjoying a long holiday with Mrs. Hughes of that town.

Miss P. Clements was a Calgary visitor during the past week.

Mrs. Peeke leaves on Friday morning for Drumheller.

Miss O'Callaghan and her mother, of Boston, U. S. A., who have been spending a few days with Mrs. T. T. Maguire, will leave Bassano on Wednesday for Calgary, where they plan to make their permanent home in the future.

MORE RAIN HELPS CROPS

Showers Yield All Parts of District—Grew Greatly Nearly an Inch of Rain in Past Seven Days

Showery weather has prevailed during the past week, and the additional rainfall has enhanced the outlook for a good harvest.

The showers have been of a local nature, coming from a northerly direction, and all parts of Bassano and surrounding districts have received a share of the precipitation.

The Bassano dam, Grouse, and Gem are the only points with rain gauges, so figures of the actual rainfall are only obtainable from these three places. The figures are as follows:

Saturday, June 13	Bassano Dam	33 inch
Countess	25 inch	
Gem	25 inch	
Sunday, June 10th	Countess	14 inch
Gem	21 inch	
Monday, June 11	Bassano Dam	33 inch
Countess	16 inch	
Gem	16 inch	
Tuesday, June 12	Countess	30 inch
Gem	43 inch	

A heavy rain fell in Bassano on Wednesday, June 13th, but at the dam, four miles south of town, there was not enough to register in the rain gauge.

The crops are coming along well, and some fields of wheat are well over a foot in height. Ryegrass is two feet high and headed one week.

Although the ground is not soaked with rain there is now sufficient moisture to carry the crop along for a couple of weeks.

Heavy rains have fallen in the Husar and Makepeace districts, and the crops there are showing a splendid growth.

U. P. A. NOTES

The June meeting of the Bassano U. P. A. local will be held in the Grouse County Hall on Wednesday, June 20th, at 8:00 p.m. in the form of a farmers' gathering. A splendid program has been arranged for: musical numbers by Messrs. Dale and Max Ferguson, reading selections by Miss Harrington, of Gem, vocal solo by Mrs. Roy Clancy, address by W. S. Scholfield, president of the U. P. A., community singing by all. Social hour and lunch for all.

A cordial invitation is extended to all farmers. Mr. Scholfield has something worth while to tell you. Don't miss this opportunity.

The June meeting of the Bassano U. P. A. local will be held in the Grouse County Hall on Wednesday, June 20th, at 8:00 p.m. in the form of a farmers' gathering. A splendid program has been arranged for: musical numbers by Messrs. Dale and Max Ferguson, reading selections by Miss Harrington, of Gem, vocal solo by Mrs. Roy Clancy, address by W. S. Scholfield, president of the U. P. A., community singing by all. Social hour and lunch for all.

A cordial invitation is extended to all farmers. Mr. Scholfield has something worth while to tell you. Don't miss this opportunity.

The Bassano School Board held a meeting last Monday evening, June 11th. The most important item of business was that of the school teaching staff for next term.

Miss Evelyn Cliffield and Miss Moffat have returned from their attendance at the Normal in Calgary.

Miss Suzanne L. Tulliver, who completed her eighth year in the Bassano school in 1934, is visiting the Misses Cliffield and other friends in Husar.

Miss Cliffield has returned to Husar with Miss Cliffield she motored to Husar on June 11.

Be sure to remember the baby clinic under the supervision of Miss Davidson, public health nurse, Husar, from 1 to 4 p.m.

C. W. May, of Calgary, arrived here Tuesday and is busy assessing village property. Mr. May comes very highly recommended for the work he has in hand. As the village has been recently incorporated it is intended to start out with an assessment, as nearly possible, consequently an outside man has been chosen for the job by the village council, on the recommendation of municipal authorities.

From September 20th to 22nd there will be a short course in second year bookkeeping conducted by Miss Knox, under the auspices of the Women's Institute, and hopes to continue along the same lines.

ARRANGEMENTS BEING MADE FOR BIGGEST CELEBRATION YET HELD

\$100 Cash Prize for First Money in Bucking Horse Contest—Other Large Money Prizes—Band Will be in Attendance on Grounds—Swimming Pool to be Opened—Big Dance at Night

What promises to be the best celebration ever staged in Bassano is now being prepared for the Dominion Day holiday, Monday, July 2nd.

The Board of Trade, under whose auspices the event will be held, is doing everything possible to make it a real holiday and celebration day.

There will be stampede events of every description, including bucking horse riding, horse races, after riding, calf roping, Indian horse races, Roman races, etc. An attractive prize of \$100 cash is being given to the winner of the bucking horse contest, and good prizes will be awarded to the winners of the other events.

There will be a good program of athletic events such as running, jumping, etc.

Heavy Hitting Wins Game For Bassano

Beats Rap Out Fourteen Runs When They Defeat Husar 7-5

The Bassano Bearties came through with another victory last Sunday afternoon when they defeated Husar 7 runs to 5 in a hard fought game on the Bassano ball diamond.

After being down 5-0 in the first two innings of the game the Bearties' hard-hitting line-up began to get in their stride, and hammered out fourteen hits in the remaining innings that were good for a total of seven runs.

The Husar team started out strong. Lien, lead-off man for the visitors, hit a three-bagger on the first pitched ball, and Walters, third man up, connected for another three base hit. Stiles followed on a long high ball, and Walters scored the second run on the throw.

A home run by Mel Muir, Husar pitcher, accounted for three more runs in the second chapter when he brought in Clifton and Bell ahead of him. The Husar players were hitting nearly everything Marquardt offered, but Art stunted in the third frame, and allowed only two more hits during the rest of the game. Husar did not score again after the second inning.

The Bearties' heavy artillery came into action in the third frame when a base on balls, followed by a couple of hard two base hits were good for a couple of runs. The fourth and fifth innings were blank. Bassano scored two more runs in the sixth when Royal Burrows connected for a three-bagger, scoring Roach and LaPaze, who had hit for singles. The score was tied 5-5 in the seventh inning when Newby drove out a two base hit, scoring Raulson who had been given a walk. Runions came through with a timely three bag shot in the eighth frame with two men down, and two on base.

The hit scored Royal Burrows and Simpson.

The line-up:
Bassano: A. Brown, cf; H. Kingston, 2b; Ralph Burrows, 3b; L. Newby, 1b; L. Roach, rf; H. Marquardt, cf; Royal Burrows, cf; A. Marquardt, p.
Husar: Len, c and rf; Jones, 1b.

DAM IS CLOSED TO TRAFFIC

The C. P. R. Irrigation dam south of Bassano was closed to traffic last Saturday. It is announced that no more vehicles will be permitted to cross the river on the dam.

Husar News

HUSAR, June 13.—Last Wednesday there was a pouring rain here, and on Sunday a heavy hail storm and rain, and on Monday afternoon a heavy downpour, so everyone is happier.

At the Ladies' Aid meeting on Thursday officers were elected for the incoming year. Mrs. W. D. Moffat is president, Mrs. A. C. Cliffield vice president, Mrs. J. V. Elliott secretary, and Mrs. H. D. Brown treasurer. A vote of thanks was extended to Mrs. A. Anderson for her wonderful work as president last year.

It was found that the ladies had made \$460.77 on their booth, etc., on the twenty-fourth.

J. W. Boyle, after visiting for a few days at the Williams ranch, returned home Tuesday.

Mr. and Mrs. Moffat and daughter, and Marvella Anderson drove to Bassano on Tuesday.

Inspector Boyce is a Husar visitor this week.

Mr. and Mrs. C. T. Armstrong, Miss J. W. Boyle, and H. Trend, spent Sunday at the river.

The farmers' picnic will be held this year at Garden Coulee on June 17th. The U. P. A. have kindly offered their invitation, so all are welcome. Bring ads.

Mr. and Mrs. B. Holland, and Francis, Josephine, and Peggie, left for Hasted, Minnesota, on Thursday. They were intending to attend the golden wedding celebration of Mr. Holland's parents, and the commencement exercises of his daughter Mildred.

Miss Mildred and Master Osborne have been staying with Mrs. Holm's sister, Mrs. Holm, and expect to motor back to Husar with their parents.

Mr. and Mrs. Farley, H. D. Brown and Mrs. H. D. Brown, Mr. and Mrs. Page, Mr. Dettie, Mr. and Mrs. R. C. Armstrong, were among the spectators at the baseball game in Bassano on Tuesday.

The regular meeting of the W. I. was held at the home of Mrs. Anderson on Tuesday afternoon. Mrs. Burrows gave a very interesting and instructive paper on Child Welfare. The matter of the baby clinic was discussed. It was decided to hold it on Friday, June 20th, from 1 to 4 p.m. This is for children under 6 years of age, and all mothers are cordially invited to bring their babies. The Institute is planning to give prizes for the babies with highest scores.

Copied from the Palouse Republic: Mrs. Rose McKenney, who graduated from the Palouse High School this year, was married to Mr. Glen LaPaze, at the Christian Church by Rev. Rhoads, on June 1st. Mr. Glen LaPaze, who graduated from the Palouse High School last year, is the son of Mrs. A. LaPaze. The bride is the daughter of Mr. and Mrs. B. McKenney, of Husar, where she is visiting her parents.

The young couple will make their home in Palouse in the near future.

Miss Evelyn Cliffield and Miss Moffat have returned from their attendance at the Normal in Calgary.

Miss Suzanne L. Tulliver, who completed her eighth year in the Bassano school in 1934, is visiting the Misses Cliffield and other friends in Husar.

Miss Cliffield has returned to Husar with Miss Cliffield she motored to Husar on June 11.

Be sure to remember the baby clinic under the supervision of Miss Davidson, public health nurse, Husar, from 1 to 4 p.m.

C. W. May, of Calgary, arrived here Tuesday and is busy assessing village property. Mr. May comes very highly recommended for the work he has in hand. As the village has been recently incorporated it is intended to start out with an assessment, as nearly possible, consequently an outside man has been chosen for the job by the village council, on the recommendation of municipal authorities.

From September 20th to 22nd there will be a short course in second year bookkeeping conducted by Miss Knox, under the auspices of the Women's Institute, and hopes to continue along the same lines.

Mr. Swann were Calgary visitors on Friday.

The Young People's Club started out on a picnic at the river south of Crowfoot last Saturday. They had just time to have their lunch when the storm started, and they were compelled to hasten homeward. Under the able management of Miss Vivian Cliffield the club has accomplished some very good work this year, and hopes to continue along the same lines.

Good Attendance At Board Meeting

Will be Only One Meeting each Month During July and August

An attendance of twenty-six members turned out to the Board of Trade luncheon-meeting held in the dining room of the Hunter Hotel last Wednesday, June 13th.

Mr. J. Blankstein presided in the chair.

Mr. Travis reported for the swimming pool committee. He said the pool was now under construction and would be completed within a week or ten days if everything went along all right.

A McKee reported for the carnival committee, stating that the committee was making plans for the carnival on the celebration day, July 2nd. The carnival committee consists of A. McKee, Wm. McLane, M. J. Blankstein, and Dr. D. Jaworth.

G. A. McDonald was elected to the public affairs committee to fill the vacancy left by the resignation of Frank Murphy, who is leaving Bassano for Nelson, B. C.

It was decided to hold only one meeting in each of the months of July and August. In each case the meeting will be held on the fourth Wednesday in the month.

Chas. Taylor, a former resident of Husar, was present.

He gave a brief speech on the value of a board of trade, and spoke words of praise for the Bassano Board.

Cast As Human Target In "The Unknown"

Joan Crawford Is Target of Knife-Thrower Chaser in New Film

Norma Shearer and Joan Crawford are "stars under their skins"—or at least their skins have shuddered at the same thing—being the targets for flying steel.

Norma, in a recent role, had to stand in front of a board while a knife thrower ringed her form with knives flung from a cross a side—just as Joan's original was harder, for the knife thrower was no professional—but Lon Chaney, throwing the knives with his foot!

This was Miss Crawford's ordeal in "The Unknown," Lon Chaney's new starring vehicle, made at the Metro-Goldwyn-Mayer studios and coming to the Gem Theatre Friday and Saturday this week, June 16th and 17th.

Chaney plays an armless sideshow freak, and in his "act" has to hurl the knives at Miss Crawford, who plays his "human target" in the circus. Chaney graduated under expert instruction in knife work, and handled the knives perfectly.

"I just smiled and kept knowing that Mr. Chaney couldn't hurt me," said Miss Crawford, describing the ordeal afterward. "You see, I know how much judgment Mr. Chaney has, and knew that unless he was sure he could do it he would never have thrown a knife. I trusted him—that's all."

The new picture is a vivid mystery story of a Spanish circus, directed by Tod Browling, with Norma Kerry, Nick de Ruys and others on the cast.

Mr. Swann were Calgary visitors on Friday.

The Young People's Club started out on a picnic at the river south of Crowfoot last Saturday. They had just time to have their lunch when the storm started, and they were compelled to hasten homeward. Under the able management of Miss Vivian Cliffield the club has accomplished some very good work this year, and hopes to continue along the same lines.

Wheat Pool Decides To Broaden Out Work Of International Conference

Regina.—At the final session of the third International Wheat Pool Conference held here, it was decided to broaden out the work of the International Conference. Under the new plan Co-operative Consumers and Co-operative Producers would now be brought together in one large co-operative body, but each retaining its identity as an individual co-operative unit. In this connection the following resolution was passed:

"Whereas the values to the various co-operative sections of meeting in conference has been established, be it resolved that national co-operative committees be formed for the purpose of furthering such conference and that such national committees appoint representatives to the International Pool Conference Committees."

Another important conclusion to which the delegates came was, that the International Conference again next year be left to the discretion of the International Committee which has charge of arranging details of this Conference.

In explanation of the national committees' resolution it was pointed out that the present International Conference Committee is representative only of wheat pools, wheat marketing organizations, but that this year had been widened in its scope and for the first time representatives of certain other co-operative organizations had been admitted as delegates.

By the formation of national committees, it was further stated during the discussion on the resolutions which would include representatives from Canada, the U.S.A., Australia, and possibly later, from Argentina or any other wheat exporting country, the existing committee was of opinion that a broader representation could be sent to the International Conference. The present International Conference is to remain in existence and make the first move toward the formation of these national committees. This will be done, it is indicated, by way of a call from the committee to all the co-operative organizations in Canada to meet and form a Canadian national committee. Following this the committee would be appointed who would join hands with those of similar national committees in the other countries that might desire to participate and thus the International Conference would be representative of all classes of co-operative producer endeavor.

Not Wanted In England

Harry Thaw Is Refused Permission To Land At Southampton
Southampton, Eng.—Harry Thaw, arriving at Southampton about the Aquitania for a visit to England, was refused permission to land by the immigration officials. Thaw, who had a British visa before sailing but nevertheless was not allowed to land. He was informed that the home office had issued an order of prohibition and it is supposed that he will be obliged to return to New York on the Aquitania.

Attending Dairy Congress
Regina.—Hon. C. M. MacPhail, minister of agriculture, has left for London, England, where he will attend the World's Dairy Congress at Saskatchewan's representative. While in the Mother Land, Mr. Hamilton will inspect conditions surrounding the marketing of Saskatchewan produce.

John Was Costly
Hallebury, Ont.—Following a match to the goal-keeping club of his friend, John Burton, last year, cost John Flinsky \$600 and costs Burton spent several weeks in hospital, and nearly lost his life. He was out of work five months as a result of the "joke."

Expect Cable Conference Report
London.—The report of the Imperial Cable Conference, in which Dominion governments are represented, will be made shortly, it is believed. The committee is called the committee to produce a scheme for maintaining cable communications intact.

No Danger Of War?
Toronto.—John A. R. Alder, president of the Canadian League of Colonies, after an extensive tour of the continent, stated in an interview here, that he considered that there was no danger of another outbreak of war.

W. N. U. 1737

No Evidence Of Grafting

Immigration Inquiry Report Exonerates Members Of Parliament
Ottawa.—The parliamentary immigration inquiry report was tabled in the House of Commons. The document contains little of a drastic nature, but thirteen recommendations for the improvement of Canadian immigration activities in Canada.

"Evidence in detail respecting the organization of the department of immigration was heard at thirty-six meetings of the special committee which conducted the inquiry. All phases of the department's immigration and colonization work—carried on both separately and in conjunction with other government and voluntary organizations—were examined into and the testimony of a long list of witnesses was received."

Ald. M. J. Colwell, Regina, who made charges last summer that members of Parliament had trafficked in special immigration permits, was numbered among the witnesses.

The report contains no findings of wrongdoing or trafficking in special immigration permits by members of the Federal Parliament or others. Tabling of annual reports at each session was brought by the delegates these permits granted is, however, suggested. Steps to speed up British immigration to Canada by improving the overseas medical inspection system and the granting of assistance to young Canadian agricultural students, similar to that given by the British authorities to British emigrant boys feature the report. Efforts towards reduced ocean passage and railway rates are also advocated.

Pass Estimates For Defence Department

Amendment Proposed To House On Cadet Training Defeated

Ottawa.—When estimates of the Department of National Defence were before the House of Commons, Miss Agnes MacPhail, Progressive, Southey Street, moved that a vote of \$600,000 for cadet services be reduced to \$1. Miss MacPhail's amendment was declared lost and the item itself carried.

During the debate, Miss MacPhail asked Hon. J. L. Ralston, Minister of National Defence, how he accounted for the fact that his department was the only one which "interfered" with education which was under provincial jurisdiction.

To this the minister replied that no training was carried out without the consent of the provincial governments. No teacher was compelled to take cadet training nor were any of the schools under compulsion to do so. He declared the strongest advocates of peace were among the youth who were their share in military training in their youth.

Included in the votes were \$2,315,000 for the permanent force; \$2,720,000 for the naval service; \$1,608,000 for the Royal Canadian Air Force, and \$2,165,000 for all air operations.

Conducting Another Search For Fliers

Quebec Man Believes Nungesser and Galt Landing in Lake St. Lawrence

Quebec.—That he was morally convinced that the French fliers Nungesser and Galt had landed with their monoplane in the Labrador country and that he had the intention of conducting a new search party this summer in that district was the statement made here by Dr. Louis Cuisinier, Dr. Cuisinier has returned from Greenly Island, where he had gone to the rescue of the stranded crew of the Bremen. Dr. Cuisinier said that the search party would be sent in specially equipped aeroplanes.

Burial Of Hon. C. W. Cross
Edmonton.—With every manifestation of sorrow and respect, the body of the late Charles W. Cross, K.C., first attorney-general of Alberta, and since 1905 prominent in public life in the province, was laid to rest here. The crown, the province, the city, bench and bar, the various other learned professions, and the general public, were all present at the funeral service was conducted by Rev. D. G. McQueen, pioneer Edmonton pastor.

Reindeer For Northern Canada

Would Supply Food For Eskimos Bands In Northern Areas
Ottawa.—Importation of bands of reindeer into the Mackenzie basin with a view to supplying food for the Eskimo bands which inhabit this remote part of Canada is being undertaken by the government.

In the House of Commons, when estimates of the department of Indian Affairs were under consideration, Hon. Charles Stewart, minister in charge of the department, told of private which had been suffered by the Eskimo in the past and the efforts which were being made to eliminate it.

Mr. Stewart also informed the house that the department was having some trouble providing relief for Indians in the Northern territories, and declared something must be done, in co-operation with provincial governments, but that he was not at all in competition with white men the Indian would starve to death.

CONSUMERS OF BRITAIN HAVE NO FEAR OF POOL

Regina.—At the International Pool Conference held here, a message of goodwill was brought by the delegates these permits granted is, however, suggested.

Four distinguished visitors from England and Scotland told the conference that the wheat pool in thousands of co-operative consumers in the Old Land to remove the barrier that appears to exist as between the two classes of co-operative and each work for the other in complete conformity with the one object in view—the creation of a wheat pool, a body composed of both producer and consumer.

A. W. Golightly, representing the English Co-operative Consumers' Organization, broke the ice on the question and told of the suspicion with which the wheat pool of Canada was viewed at the start. The Rochdale co-operatives, he said, had had better experiences in the last 70 years with trusts and combines, and the formation of the wheat pools had first appeared to them as a trust in disguise.

He frankly told how his organization had wondered whether it wasn't another effort to squeeze the co-operative consumer, whether one class of co-operative would be set against another. He added that the power which the Canadian pool possessed in the economic structure of the world was enormous. "And we wondered how you were going to use that power."

Alarm, however, had given way to admiration. "I am satisfied after listening to inspiring addresses, after hearing your general sales manager, to go back to my friends in England and tell them that the wheat pool has adopted the best method of handling their product co-operatively," he added, amid loud and prolonged applause from the delegates.

Mr. Golightly's colleagues amplified his remarks and Peter Malcolm of the Scottish co-operative, caught the fancy of the audience by saying that his organization desired to buy the wheat of Western Canada, raised and sold in a co-operative way, in order to use it in the bread co-operatively made by his people and sold to them in his co-operative society. "The vessels that bring your co-operative grain to us should return to you with our co-operative made goods," he said.

U.S. PRESIDENTIAL POSSIBILITY

Universities Eldest Dr. Laing
Montreal.—Dr. H. G. Laing, dean of the faculty of arts of the University of Saskatchewan, Saskatoon, was chosen president of the National Conference of Canadian Universities held at a session of this conference.

The present United States secretary of commerce, Herbert Hoover, is regarded as the leading Republican candidate for the presidency of the United States. The above is the most recent portrait of Mr. and Mrs. Hoover taken at their Washington home.

PRESENTED AT COURT

Miss Ruth Rogers, the American actress, caused a stir in English society when she was presented at court. In the past the understanding has been that it was useless for any actress to seek presentation while she was still actively engaged in her profession, but when she was asked to do that the general ban on stage folk has been a dead letter since the days of Queen Victoria.

Agree On Peace Pact

No Difference Of Opinion Between Canada and Britain

Ottawa.—There is no conflict of opinion between the Prime Minister of Canada, Sir Austen Chamberlain, British Foreign Secretary, with regard to the proposed Kellogg treaty for outlawing war.

This was made clear by Premier Mackenzie King in the House of Commons, when he replied to a question put by E. J. Garland, U.F.A., Bow River.

Mr. Garland had drawn the attention of the Prime Minister to his answer to C. H. Cahan, Conservative, St. Lawrence-St. George, on May 18, when Premier King declared that he was erroneous to suggest that the British Government could not sign the Kellogg treaty without the concurrence of the Dominions.

Premier King referred Mr. Garland to his communication to Mr. Kellogg where he had set forth that the treaty would be submitted to parliament.

Request For Railway Cars

Note Available And Firms Subsequent Accumulating At Prime Minister

Ottawa.—A request for railway cars to carry an accumulation of halibut from Prince Rupert, B.C. to the Eastern markets was made in the House of Commons by J. C. Brady, Conservative, Skeena.

Within the last few days 490,000 pounds of halibut have been brought to Prince Rupert ready for market. Only three cars were available and these had been secured by U.S. shippers. He asked the Minister of Railways to take some action to assist the Canadian shippers to obtain quick service.

Hon. C. A. Dunning, Minister of Railways and Canals, promised assistance.

To Honor Airmen

Winnipeg, Man.—In honor of four pioneer pilots of the air, four new stations in the western region of the Canadian National Railways have been named Pitmanville, Lindbergh, Alick and Hinchcliffe, and a fifth is to be called Endeavor, the name of the plane in which Walter Hinchcliffe and Hoyt Elsie Mackay attempted to fly the Atlantic.

Universities Eldest Dr. Laing
Montreal.—Dr. H. G. Laing, dean of the faculty of arts of the University of Saskatchewan, Saskatoon, was chosen president of the National Conference of Canadian Universities held at a session of this conference.

May Hold Exhibition Of Canadian Goods

Plan For Publicity Campaign In Britain Being Formulated

London.—Canadian products should become very well known in Britain if Parmelee's scheme succeeds. Exhibition of Canadian products are being held in the near future at Birmingham, Aberdeen, Belfast, Manchester, Glasgow, Dublin, London, Bristol, and a striking publicity campaign will be put into operation. A permanent staff, composed entirely of Canadians, will be created in London so as to be ready at any moment to run exhibition campaigns on behalf of Canadian products. Canadian artists will design the stallings and posters.

Parmelee is staying two months in order to perfect the scheme, which has been welcomed by trading authorities and the British government as a noteworthy enterprise.

PROTEIN CONTENT BEST BASIS FOR GRADING WHEAT

Ottawa.—The proposal that the protein content be made the basis on which wheat is graded was adopted by the committee on agriculture in its report submitted to the House.

It came to the conclusion that the nearest approach to an ideal index of the baking strength of wheat was by determining the variety and quantity of protein in the last lot to be ascertained by chemical test. At present the baking strength is determined on the variety and percentage of hard kernel.

The report stated that so far as the export trade was concerned there was no sufficient evidence as to the effect of the proposed change from the present system of grading to that of the protein test to warrant a recommendation that the city should be recommended that a full inquiry into that phase of the question be made.

The committee also urged that seed warehouses be maintained to collect and distribute seed of approved varieties; that an experimental flour mill be established and that inspectors be stationed at all transfer points between the head of the Lake and the wharves in order to prevent mixing of wheat.

The changes, if carried out, would necessitate amendments to the Canadian Grain Act.

The resolution states that in Canada, Great Britain and the U.S., and probably most other countries, wheat is graded on the basis of protein content, and that this method of grading is an important factor in determining its value, and this strength is the quantity and quality of protein.

Except in the case of durum wheat, at present graded in a class by color and possibly one or two other varieties grown in relatively small quantities, the protein in the grades could be assumed to be good quality.

Cost of making protein tests should range from 50 to 75 cents. The committee suggested that the cost of installing and maintaining laboratories. Individual tests would require about two hours. A large number of tests could be conducted simultaneously and there would be no delay in testing and dispatching cars to terminal points.

The definite proposal in the resolution could be put into effect immediately. This practice is already carried but the committee was not satisfied that wheat sold locally in Winnipeg could take advantage of this scheme. This practice of local sale of wheat pool members, where by farmers and elevators forwarded samples of quality Canadian wheat, pointed a way to solution of the street wheat problem and should be investigated.

Introduction of protein as a factor in wheat grading would be an incentive to grow the best milling varieties.

According to L. H. Newman, Dominion cerealist, and in the opinion of the agriculture committee, "these grades are cleaned at desirable Early Red Fly, Marquis, Ruby, Red Marquis, selections, Kentville, Kitchener, Garnet and Reward."

The cereal division of the Federal Department of Agriculture and provincial governments should continue to perfect the scheme, which was set with a view as to varieties most likely to prove satisfactory in each case. The committee expressed the opinion that the last Great Western, harvested from No. 1 Northern, should be eligible for that grade.

Wheat Crop For The Current Year Greatly In Excess Of Estimates

Man's Body Found In Ranger's Cabin

Discovery Was Made By Climbers At Jasper Park

Jasper.—The body of an unidentified man was found in a ranger's cabin on the slopes of Big Horn Mountain. T. A. Crosswell, guide at Jasper Park Lodge, who made the discovery and reported it to the Royal Canadian Mounted Police, said that the man had apparently died of exposure. He could not say how long he had been there.

Crosswell was accompanied by Miss T. Campbell, of Sydney, Alberta, and G. G. F. Glenie, of Assin, Innis, who stayed at the Lodge, who with horses, made the first ascent of Big Horn. They ran into a snowstorm on the way up and it was when they sought shelter in the cabin that the body was found. The man had apparently taken off his shoes and had lain down where he was overtaken by the cold. As far as Crosswell could tell, this may have happened several months ago. The body is being brought down by the police.

SUNDAY SCHOOL LESSON

JUNE 17

THE CRUCIFIXION

Golden Text: "God commendeth his own love toward us, in that while we were yet sinners, Christ died for us." Lesson: Mark 15:14-47. Devotional Reading: Isaiah 53:1-12.

Explanations and Comments

The Crucifixion, verses 22-27.—They led Jesus away to be crucified. The place where the city was the Jewish usage (Acts 7:8), to Golgotha, which means "the place of a skull." We call the spot Calvary. From the Latin word calvaria, which means "a skull," it was customary to give one about to be crucified a stupifying drink, and this was offered to Jesus. He refused it, saying, "I thirst." He said, "I thirst," and the soldiers cast a sponge, soaked in vinegar, on a reed, and gave it to him. He said, "I thirst," and he would drink it to the end.

The garments of the crucified—the tunic, the robe, the garment, the girdle, and the seamless inner robe—were the properties of the executioner, and the soldiers cast lots to see who should have them.

There have been many like these soldiers, unmoved by the most pitiful pleas of the condemned, who have been moved by what they could by their own hands. In the Great War, when mothers gave their sons, wives their husbands, and men themselves, to the nation poured out its money in the service of the profiteers. The thought of his own greed. He said, "I thirst," and he would drink it to the end. He said, "I thirst," and he would drink it to the end.

It was the third hour, nine o'clock in the morning, when they crucified him. The accusation placed above him on the "Plaque" was "The King of the Jews." The King of the Jews was a title which Jesus had been guilty, and which he had not sought to be. The priests, who, as he expected, crucified him, were crucified to themselves. John 19:21-22. That all who passed by might read it, the inscription was written in Hebrew, Latin, and Greek (John 19:19, 20), the languages spoken of in this time throughout the civilized world.

On either side of Jesus a thief was crucified. "Crucifixion was terrible and disgraceful even in itself, but if Jesus had hung upon His cross with nothing near him to disturb the impact of His own agony and his innocence, it might have happened that the people who stood and watched Jesus die, would not have seen him, and would have felt the majesty of his sacrifice. Already that place of suffering might have seemed as glorious as the cross seemed to the people. But as it was, they went to the prison and dragged out two wretched criminals who were waiting for their death. That there might be no doubt about the justice of the proceedings, John the Baptist's suffering, they hung him between two thieves."—Phillips Brooks.

Many Nations Represented

Toronto.—It is expected that 60 nations will be represented in Toronto when the Baptist World Alliance holds its fourth congress here, June 23-29. About 7,000 delegates are expected, representing some 12,000,000 Christians throughout the world. The roll call of nations on Saturday, June 23, probably will be the most picturesque session.

Grant For Health Department

Ottawa.—For the Federal Health Department to \$200,000 has been passed by the House of Commons. The votes included \$100,000 for administrative expenses and \$100,000 for quarantine, and \$100,000 for venereal disease.

Winnipeg.—The wheat crop of the current year is greatly in excess of the estimate made last fall. According to figures given out by H. D. Corbett, superintendent of inspection for the Canadian Pacific Railway.

Up to the end of May there had been marketed on the Canadian Pacific Railway 216,370,907 bushels, while the Canadian National reported 168,068,000 bushels, bringing the total of both lines up to 384,438,907 bushels.

Allowing 45,000,000 bushels for feed, seed and grain mills brings the total accounted for up to date to 339,438,907 bushels, and reports show that there are still between 10 and 20 million bushels in the hands of the farmers for marketing.

Up to the end of May farmers marketed a total of 25,460,493 bushels of all grains on Canadian Pacific lines, as compared with 22,029,228 bushels last year, representing an increase of 34,476,265 bushels; loadings to total 117,126 cars of all grain for the same period. The Canadian Pacific, 149,328 cars last year, against 176,396 cars this year. The total for the Canadian Pacific is now 22,398 cars ahead of last year's figures.

The Vancouver movement has been particularly heavy, a total of 30,679 cars of all grain being loaded up to date, of which 17,789 cars as compared with 12,708 last year. The export of grain from the port of Vancouver to the end of May was 1,000,000 bushels, as compared with 325,601 bushels last year.

Pension Changes Are Again Before Senate

Amendments Were Not Acceptable To House Of Commons

Ottawa.—The pension bill with the Senate amendments which were unacceptable to the House of Commons was before the Senate again and referred to the same committee, with the addition of Senator Taylor, responsible for the amendments.

The important issues in dispute are the right of appeal of dependents of pensioners and the question of the pensioners board and the right of widows who married pensioners subsequent to their disability from which they were released.

At present there are 700 widows who would be eligible for pensions if the House of Commons proposal was adopted.

The pension law regarding dependents at present is that there is no appeal from the decision of the pensioners board. The Commons amendment would permit of an appeal to the appeal board.

Planning To Bring Welshmen To Canada

Fifty Thousand Would Come If Dominion Government Gives Consent

Toronto.—Plans to bring 50,000 young Welshmen to Canada, suggested by Rev. A. L. Richards and approved by the British Colonial Office, are to be proceeded with if the Canadian Government gives its consent, Mr. Richards stated.

Mr. Richards blames the delay in England for the present sharp Canadian immigration work over here. "Followers who have never seen the land of their birth, the young men of 17 and 30, and it is worse they are now marrying on the spot," he said.

Wilks's Outlines Plans

London.—Captain Sir George H. Wilks, who has been in the city since his arrival in London by air from Amsterdam, and in an interview told something of his plans for Atlantic exploration. He will visit the Arctic, he said, about November 1, with his actual Polar flight to start later from King Edward VII. land, with the ship "H.M.S. Wilks," and will return to the city of Cape Horn.

Brandon Goes West

Brandon, Man.—Brandon, noted prohibitionist centre of the province, sent "wet" whisky to the stores in favor of the opening of beer parlors in the city. The vote was: "For," 8,214; "Against," 1,921, a majority of 1,293.

The tourist who takes his automobile and drug and food, and an average to have it ready for him at the time he lands, with the tank filled and the license procured.

"Do you believe in giving a man plenty of rope?"
"No, my dear; I did that with my husband, and he skipped."

"Heater, you've married a perfect dear, but what a short man your husband is!"

"Ah, well, Ma'am, at Trenton very nearly said 'it's better to have loved a short than never to have loved a tall.'"

CHESTER WHITE SOWS MADE POOR SHOWING

The undesirable quality of a number of Chester White sows recently introduced into the province, by the Central United States Swine Co., is indicated by a recent occurrence on the Calgary stock yards, where nine of these animals were shipped back to the yards from a town in the central part of the province where they were being held for sale to farmers in the district.

Of these nine sows which had been shipped in from the United States as breeding females, five sold on the Calgary market as "sows" at \$9.50 per hundred, and the remaining four graded "thick smooths" and sold at \$25.00 per hundred. The price for select bacon hogs on the same day was \$10.10 per hundred pounds.

Teacher: "We borrowed our numerals from the Arabs, our calendar from the Romans, and our bank- ing from the Italians. Can anyone think of any other examples?"
Charles: "Our law mowers from the Smiths. Our sewing machine from the Jones, and a pair of steps from the Evans."

A commercial traveller held up in Orkney by a storm wired his firm in Aberdeen: "Marooned by storm. Who instructions?"
They replied: "Start summer holidays as from yesterday."

Little Girl (having seen a Highland Piper for the first time): "Oh, please, Mr. policeman, can't you come to the rescue? There's a man squeezing something under his arm, and he's hurting it terribly."

THE BASSANO MAIL
Walter J. Smith
Editor and Publisher
Subscription \$2.00 a year, \$2.50 in advance

More trouble in China. The bandy men are sharpening up the soldiers for another season.

An airplane expedition is hunting for cheaper sugar for the United States. Albertans are fortunate in having their own sugar that "beats" that game.

I AM HAPPINESS

I am that for which you are looking. I am the goal of religion. I am the objective of philosophy and science. I am the dream of the wretched. I am the quest of the world, the great hunger of humanity.

My dominion over man is world-wide. As children they revere toward me. As old men and women they totter after me. I am an insatiable thirst.

Because of me mankind carries on business and commerce. Because of me the scientist labors long in his laboratory. Because of me millions of dollars are spent for the purpose of education. For men know that knowledge, health and business are paths to my domain. My name is written into the most exalted declaration of independence on earth. The right to the pursuit of my has been written in the hearts of men and sealed with their blood. Civilization is my reward, and man's home is my chief dwelling place.

For all that I am a bright dream and a beautiful promise, the children of man still stumble and fall and bruise themselves in my quest. They still continue me with pleasure and with riches and with power.

Yet I am as I always have been. I am the same yesterday, today, and forever. The children know me and possess me, and the child-like at heart never lost their hold on me.

BETTER BUSINESS ETHICS

It is a wholesome sign of the times that business and professional men are much concerned over the ethics of their own particular occupation. Many trade associations, service clubs, and other commercial bodies have committees on business standards and printed codes of ethics to guide their members. Colleges and universities offer lecture courses on the subject, books are being written on it, and there are organizations dedicated to the improvement of the standards of business conduct.

However, the public is not overly impressed by the mere organization or printed codes, standards or platitudes. It judges the ethics of a business by the ethics of the individual members of that business. It does not buy goods from trade associations, but from individual companies. It really matters is not the publicly announced and purposefully high-sounding and sonorous code the actual everyday conduct of the of an impersonal organization, but the actual everyday conduct of the individual business man, firm, and corporation.

But there is not a consumer who has not convinced himself by actual experience that merchants, especially, are doing more than talking about service. Modern business has learned that "honesty is the best policy," and that "he profits most who serves best." And it matters little to the consumer whether business is rendering better service for purely selfish reasons or because it has become morally conscious.

Profits are a worthy, laudable goal, but if they are the only aim of business, then the commercial system is doomed. And it follows naturally that, since the commercial system shows no evidence of decay, profits are not the one and only goal of modern business.

RAIN

Rain has visited the Bassano and surrounding district during the past ten days and given a bright outlook to the prospects for the 1934 harvest. While the rainfall has not been heavy, there has been a considerable supply of moisture, enough to create enthusiasm and cause rejoicing. The rain is welcome, and everyone is thankful for it.

Rain is the life-blood of the farming industry, of all industry. A few inches of water at the right time bring beautiful crops, plenty, and prosperity. Without that moisture the harvest is lean, money is scarce, and times are hard.

The soil of this district is very productive. Given a supply of moisture it will grow crops that

cannot be spelled anywhere. Grain, garden produce, and small fruits all develop a wonderful growth and yield abundantly when sufficient moisture is provided. There is no other district in Alberta which can boast of higher quality farm produce than that which can be grown here. Although the growing crop is still young, and the harvest season is a long way off, there is good reason to be pleased with the crop prospects.

THE DOG

I've never known a dog to wag his tail in glad he didn't feel. Nor quit his old-time friend to be a more influential help. The yellow cur I ever knew was to the boy who loved him, true.

I've never known a dog to show his back to a kinder man to know. Or richer; but unto the end the humblest dog I ever knew was, to the man that loved him, true.

I've never known a dog to fake affection for a present gain. A false display of love make. Some life favor, to attain. I've never known a Prince or Spot That seemed to be what he was not.

But I have known a dog to fight With all his strength to shield a friend. And, whether wrong or whether right.

To stick with him unto the end. And I have known a dog to lick The hand of him that men would kick.

And I have known a dog to bear Starvation pangs from day to day. With him who had been glad to share His bread and meat along the way. No dog, however mean or rude, Is guilty or ingrateful.

The dog is flattered with the dumb. No voice has he to speak his creed. His messages to humans come. By faithful conduct and by deed. He shows, as seldom mortals do, A high ideal of being true.

First Mexican: "Carlos has announced that he will be a candidate in the next election."
Second ditto: "What's he running for?"
First Mexican: "The border."

"Oh, Walter," murmured his fiance, angling for compliments. "This great joy is beyond me. Why do you lavish all this wealth of love on me when there are so many more beautiful and more wealthy than I?"
"I'm hanged if I know," said Walter, absent-mindedly.

WHEN BETTER AUTOMOBILES ARE BUILT—McLAUGHLIN-BUICK WILL BUILD THEM

The Only Car with a Sealed Chassis
fully guarded against dirt, dust and moisture and offering protected performance

It is the fashion of the day to place first importance on motor car beauty; and for this the alluring beauty of McLaughlin-Buick's smart, low-swing bodies by Fisher is largely responsible. But keep in mind that you get many things besides beauty when you buy a McLaughlin-Buick. You get unequalled riding ease—vibrationless performance—and above all the unique reliability of the world-famous McLaughlin-Buick Sealed Chassis and Triple-Sealed Engine.

Every vital part of the McLaughlin-Buick chassis is enclosed in dirt-proof, dust-proof, water-tight housings to assure reliability and long life. And McLaughlin-Buick's proved Valve-in-Head Engine is fully guarded by crankcase ventilator, air cleaner, oil filter and gasoline strainer.

McLaughlin-Buick is the only car offering this twin feature as well as protected performance under all road and weather conditions.

Admire McLaughlin-Buick beauty—but insist upon McLaughlin-Buick dependability. It's a wonderful thing . . . even in these days when all cars are assumed to be dependable.

The G.M.C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.

Here and There

(31) The Duchess of Bedford, latest addition to the Canadian Pacific's fleet of passenger liners on the Atlantic, is the first of four cabin class vessels being constructed for the Canadian Pacific to be added to the company's service on the St. Lawrence route, and they will also be used for winter cruise purposes.

Winnipeg. — According to statistics recently collected from 243,122 farms, there are 6.8 horses to each farm in Manitoba and a tractor to every 4.6 farms in the province. Each Saskatchewan farm has 9.3 horses and there is one tractor to every 4.7 farms. In Alberta there are 10.5 horses to each farm and one tractor to every 7.5 farms.

Ottawa, Ontario. — Employment stood at a higher level in Canada in April, 1929, than in any April as far back as records go. Returns from 4,191 employers of labor with working forces aggregating 942,540 persons, showed the employment level standing at 101.1, as compared with 100 in April, 1927, and 94.1 in April, 1926.

Winnipeg. — Honestest entries in the four Western Provinces for the first quarter of 1927. Fillings in Manitoba, 107, compared with 1,816, as compared with 1,030 in the first quarter of 1927. Fillings in Saskatchewan 655 as against 527, in Alberta 582, as compared with 567, and in British Columbia 72, against 12.

Earnings and expenses statement of the Canadian Pacific Railway for the month of April, issued from headquarters of the company, show net profits up \$19,644.85 as compared with April of last year. Net profits for the four months to date of April are shown increased by \$1,652,477.11 as compared with the same period of 1927.

The English Rugby League Football team, at the present time touring Australia and New Zealand, is scheduled to arrive at Vancouver on R. M. Niagara, September 14, and will play a game there next day, leaving on the Trans-Canada afterwards. Montreal where another game will be played September 20, before sailing for England on the Duchess of Athol next day.

Free scholarships to C. P. R. apprentices or employees under 21 or to minor sons of employees of the company covering five years' tuition in Chemical or Civil Engineering at the Ecole Polytechnique of the University of Montreal and four years' tuition at the Montreal School for higher commercial studies are announced by circular over the structure of Grand Hall, senior vice president of the railway. The scholarships are two in number, one of each of the institutions of learning specified and are decided by a high standing in competitive examination.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSN. SCARLET FEVER ANTITOXIN

During the past few years there was discovered a scarlet fever antitoxin which gives the same satisfactory results in the treatment of scarlet fever as have been secured in the treatment of diphtheria with diphtheria antitoxin.

Scarlet fever is caused by a certain disease germ which gives a poison or toxin. It is this toxin which, in some cases, kills, and which in all cases does more or less damage to the various organs of the body. The scarlet fever antitoxin counteracts the toxin. Given early and in sufficient quantity it not only cures but prevents the damage which may be so serious.

Those who are responsible for the care of children should appreciate that the life of the child, when attacked by sickness, may depend upon prompt treatment. Certainly, in two diseases, scarlet fever and diphtheria, every hour's delay endangers the life of the child.

In Canada there were 282 deaths from scarlet fever during 1928. This loss of human life is, of course, serious. In addition, there is a much larger number who recovered, some of whom are more or less permanently damaged.

Scarlet fever antitoxin, like diphtheria antitoxin, should be in direct and readily available throughout Canada for the saving and conserving of human life.

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto will be answered by letter. Questions for diagnosis and treatment will not be answered.

HOG PASTURES

(Experimental Farms Note) Pastures are essential for economic pork production, especially for growing pigs and brood sows. Pastures provide an abundance of cheap feed, and considerably reduce the cost of pork production. The choice of pastures, however, largely depends on soil and climatic conditions.

In Indian Head, such pasture crops as rape, oats, barley, rye, millet, and various mixtures have been under test for a number of years. Variety of pasture is essential in order to provide an abundance of succulent feed throughout the season.

Rape has proved to be one of the best pasture under test from the standpoint of economical gains and the provision of succulent feed throughout the late summer and fall months. Rape sown in June will be ready in August or September and may be used to finish the early spring pigs or give the fall litter a fair start before the cold weather sets in. A good stand of rape is capable of carrying from fifteen to twenty pigs to the acre.

The coarse grains such as oats, barley, etc., when sown alone, or in combination, supply an abundance of green succulent pasture. To obtain the best results with these mixtures the pigs should be turned on when the growth is from six to eight inches high. Fall rye has also given good results as hog pasture. Fall rye when sown in combination with oats provides succulent pasture throughout the entire season. As the oat pasture becomes exhausted, the fall rye will gradually take its place and provide green succulent feed all fall. Fall rye sown late in August and early in September will supply green pasture for the early spring litter. Suitable pastures should be available for the growing pigs, brood sows and stock boys.

WHEAT POOL NEWS

Wheat pool elevators in Alberta will be operated on a cost basis to patrons. This decision was reached by the seventy delegates assembled in convention in Calgary. It was decided to make this policy retroactive. The second largest wheat elevator system during the 1927-28 crop year will be disbursed to the pool members who put their grain through these elevators.

The change in elevator policy was recommended to the delegates by the directors and two proposals submitted. The first proposal was to eliminate handling and service charges upon delivery of the grain to the pool elevator and deduct the actual operating cost on a per bushel basis from the final wheat pool payment. This method was adopted by the delegates after a lengthy discussion.

The second proposal was to make the usual charges to pool members delivering their grain and to refund to patrons at the end of the fiscal year any excess charges over and above actual operating and overhead costs. The Saskatchewan pool embodies this policy in the operation of its elevators.

The new policy decided upon will mean a distribution of pool elevator excess earnings during the present crop year only to those patrons using pool elevators, on the following basis: 1. through pool country houses; 2. platform shipments to pool terminals; 3. through non-pool elevators to pool terminals. The incoming crop will be handled through pool elevators on an actual cost basis as described elsewhere in this article.

The purpose of this new system is to increase the volume of grain passing through pool elevators. C. M. Hall, general manager of the elevator system, in addressing the delegates, strongly urged that members use their own facilities to the fullest extent.

He pointed out that only by following this policy could the elevator system be able to function with the greatest economy, and the full objective for which the system was built be realized. This coming harvest the Alberta pool will have close to 200 line elevators in operation and three terminals at the Pacific coast. In order to bring the greatest possible return to pool members with the maximum protection in weights and grades, Mr. Hall suggested that every effort be made to have pool grain handled through pool elevators.

George Melnor, general sales manager, addressed the delegates and pointed out the advantage to the selling agency in having pool grain in pool elevators readily available to complete sales at any time. He stated that by placing their grain in their own elevators, pool members can assist pool customers in getting better prices for their grain.

The new policy laid down by the pool delegates will mean something new in co-operative effort in Canada, if not in the world. It means that members will be charged only the bare cost of operating the elevator facilities. When they haul their grain into pool houses no service or elevator charges will be made. At the end of the fiscal year the actual operating charges will be available and will be deducted from the final wheat pool payment.

The decision to change the elevator policy was arrived at only after prolonged consideration. Every angle of the question was fully considered and debated.

GOOD PRICES PAID AT LACOMBE BULL SALE

Very satisfactory prices were secured by the contributors of the 56 animals disposed of at the Lacombe annual bull sale on June 1st. The Aberdeen Angus sales averaged \$125.75; the Herefords \$175.65, and the Shorthorns \$166.15, with a grand average of \$145.90.

TEST VALUE OF CHEMICAL WEED DESTROYER

A series of tests to determine the value of two chemical preparations in the destruction of Canada thistle, sow thistle and quack grass is being conducted at a number of points in the province under the direction of Field Crops Commissioner W. J. Stephen. The first of these, known as the Chipman Atlas Non-poisonous Weed Killer, is manufactured in the United States and the second is a preparation formulated by A. W. Wadden, of Gainsford, Alberta. The first trials of the efficacy of these chemicals were made on a number of plots in the vicinity of Edmonton on June 8th, and additional tests will be made at a number of points before any announcement is made as to their value.

Norah: "I think John is a perfect idiot." Mary: "Why?" Norah: "He wrote me from Africa saying he had shot an alligator seven feet long, and when he had shot another he would have a pair of slippers made for me."

"I had such a funny sticking feeling when Jack tried to kiss me." "Haden, you ever been kissed before?" "Not by a submarine sailor."

ALL RAIL OR LAKE & RAIL

World's Greatest Value altogether or part by part

To know the overpowering conviction of greatest value held by Essex owners is merely to see Essex beauty, to examine Essex quality, to sit inside and feel Essex comfort—to ride and know Essex performance.

Greater in power, more versatile in all performance, larger, roomier and more beautifully appointed, the New Essex Super-Six gloriously earns its richer reward in the greatest popularity of Essex history.

Local News

Sheriff H. Purdy, of the A.P.P. made a trip to Calgary Tuesday night.

Jakey Bulmer was home from Calgary, over the week-end.

A number of people were down from Husar Sunday to attend the Hussar-Bassano ball game.

Donald MacGregor is back from Calgary where he has been attending Normal School.

Miss H. McArthur spent Tuesday and Wednesday in Husar visiting with Mrs. H. N. Bulmer.

M. D. Macdonald attended the Grand Lodge Masons in Calgary on Wednesday of this week.

There are some fine looking crops in the vicinity of Bassano. Prospects are good.

A daughter was born to Mr. and Mrs. Goodridge, of Husar, on Sunday June 10th.

Guy Foster has a new model Ford coupe, purchased from Roy Smith, local Ford dealer.

A daughter was born to Mr. and Mrs. Ralph Galt, of Majorville, on Wednesday, June 13th.

Ralph Burrows, and Harold Runkles, with Yankee Plants of Brooks, went to Queenstown Thursday to play in a baseball tournament there.

Chas. Taylor, a former resident of Bassano, was a visitor in town, on Wednesday shaking hands with old friends.

A. R. Maurer has installed a band saw in his blacksmith shop. The new machine is used in wood working.

Work is progressing on the swimming pool, and the pool committee plan to have the official opening on the Dominion Day holiday, July 2nd.

Miss B. Leonard returned home Monday after spending a couple of weeks visiting at the home of Mrs. W. S. Wolf, near Mapleton.

R. M. Butterworth is driving a McLaughlin-Buick coupe, which he bought from Harvey Smith, Bassano dealer.

Edward Oster has returned to his home in Husar after recovering from an operation performed in the local hospital.

John Anderson, of Jensen, who has been a patient in the Bassano Hospital, has returned home. He was operated on for appendicitis.

W. J. Parks, C.P.R. station agent at Rosemary, was in the Bassano Hospital for a few days last week, undergoing an operation.

J. J. Shaw and Wm. Starobuk were brought to the local hospital this week from the railway construction camp at the Red Deer river. Both men were suffering with broken legs.

Mrs. H. S. Johnson, convener of Bow Valley Women's Institute, attended the Brooks W. I. meeting on Wednesday of last week, and on Thursday the meeting of the Patricia W. I.

Allan Clark, of Cluny, and Ray Raymond, of Clivale, have returned to their homes after being operated on for appendicitis in the local hospital.

L. D. Nesbitt stopped off in Bassano Friday afternoon on his way back to Calgary from attending the world's wheat pool conference in Regina. Mrs. Nesbitt, who accompanied him to Regina, went right on through to Calgary.

Harry Hissman is now at Husar where he has some buildings under construction.

Sammy Hollingsworth, of Canale, 15 years of age, died in the Bassano Hospital on Monday, June 11th. The young fellow had been sick for many weeks.

Killicully Hound
She: "Does it make any difference to which side I sit?"
He: "No, I am ambidextrous."

Mrs. Grumpy Speaks
An Englishman was seeing some "collegiate" dancing for the first time. He seemed greatly impressed, and after a lengthy pause inquired, "I say, my dear chap, they carry afterward, don't they?"

Fifty-Fifty
Pat Murphy was taking his first flight in an airplane. The pilot was taking him over New York City. When they were up about 1,000 feet the plane suddenly went into a nose-dive.

"Hi, hi!" laughed the pilot, shouting to Pat. "Fifty per cent of the people down there thought we were falling."

"Begorra," admitted Pat, "and fifty per cent of the people up here thought so, too."

Sauce for the Goose
There was another man who was hen-pecked.

His wife cornered him one day and said: "I'm sick and tired of hearing you refer to the car as your car. Hereafter I want you to call it our car. I've got a half interest in everything you own."

"Begorra," admitted Pat, "and fifty per cent of the people up here thought so, too."

HEALTH SERVICE of the CANADIAN MEDICAL ASS'N. DIRT AND DISEASE

There has always been an association between dirt and disease. In their earliest days, health departments were occupied in cleaning up the towns and cities because it was believed that disease was bred in dirt.

We have learned that there is a great difference in the various kinds of dirt. The only dirt that is dangerous is that which is contaminated by secretions of the human or animal body. The reason for this is that the body secretions carry away from the body the disease germs which may be present in it.

Tin cans are unsightly, but tin cans are not in themselves going to cause disease. Potatoes or apples, in rotting, give off an offensive smell, but bad smells do not cause disease.

The clean person, the one who covers his cough and sneezes with a handkerchief, who keeps flies out of his home, who washes his hands before he eats, is not going to live in a dirty or unclean place. The clean person gets rid of dangerous dirt when he gets rid of all dirt. This is why, generally speaking, health and cleanliness go hand in hand.

Becomes a clean city or town, by caring for all dirt, makes sure that dangerous dirt is disposed of, because clean surroundings are a stimulant to personal cleanliness and orderliness, and because cleanliness makes for more comfortable and happier lives, all efforts toward securing and keeping a city or town clean are to be commended and should be supported.

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto will be answered by letter. Questions as to diagnosis and treatment will not be answered.

The sermon went on. "How long has he been preaching?" whispered the late comer. "Thirty or forty years," murmured the white haired man addressed. "I'll say, then," muttered the other, "He must be nearly finished."

A certain contractor who had always professed to be fond of children became very angry because some little fellow stepped on a new pavement before it was dry. In the midst of his tirade, a bystander broke in, "I thought you loved children."

"I do in the abstract, but not in the concrete," he replied.

Person to trump: "Why ever don't you wash yourself?"
"Cos I'm too busy, my dear."

"Two buns!" At what?"
"Acquire the country."

Barber (chatting customer): "Shall I go over it again, sir?"
Customer (shortly): "No, thanks, I heard you the first time."

Local News

ILL. Becker was a visitor to Calgary on Wednesday.

The 21st Battalion band, of Medicine Hat, will be in Bassano for the celebration July 2nd.

Thursday next week, June 21st, is the day of the summer solstice, the longest day and shortest night.

Sergeant R. Parry, of the A. P. P., who was recently transferred from Carlton to Bassano, has been moved again, this time to Calgary. The police officer from Trochu will be given charge of the Bassano detachment.

CARD OF THANKS

Sergeant and Mrs. Wright wish to express their appreciation to the many friends of Bassano and district who so kindly contributed to the lovely and useful gifts which they received before leaving Bassano for Lethbridge.

Venus Victrix

"Ma, I'm engaged."
"Can she bake a cherry pie?"
"Yes, and she can change a tire."

A recently appointed vicar in his first sermon spoke severely against betting. After the sermon was over a parishioner told the clergyman that one of the wealthiest members of his congregation was a notorious gambler. The vicar, not wishing to begin badly, approached the rich man after the service, and said: "I'm afraid I must have offended you."

"Don't mention it," was the answer. "It's a mighty bad sermon that doesn't hit me somewhere."

Chancellor

CHANCELLOR, June 13.—An interesting event took place on Friday afternoon, June 8th, when the new Sunny Range school was formally opened. This school is situated on the main Calgary highway, four and three-quarter miles west of Hussar, on a three acre knoll of land purchased from M. P. Nelson.

The Sunny Range School District was re-organized last year in order that the hamlet of Chancellor could have a school. Sunny Range district was extended eastward to join with Hussar, and the contract let for the building of a new school. Owing to the early freeze-up building operations did not commence until the latter part of April, and the school was finished on May 31st.

On the occasion of the formal opening, June 8th, upwards of fifty people assembled at the school toward three o'clock. The children stood in front of the fagpole, and chairman J. M. Wheatley addressed the gathering from the front steps, and unlocking the door declared the school opened. The children thereupon gave a patriotic exercise, and the flag was run up. A short program of children's recitations and songs followed. Miss Walters, the teacher, presiding at the organ.

During the program the chairman addressed the gathering and unveiled the Federation Memorial Plaque. Following the singing of the national anthem refreshments were served.

The school is built to accommodate thirty pupils. It is equipped with pipeless furnace, concrete basement, maple floors, and other modern features. A neat barn to house 12 head of horses and a detached well complete the equipment, the cost of which, all told, is well under four thousand dollars.

GOOD BEET PROSPECTS

Raymond Allen—Officials of the Canadian Sugar Factories are encouraged by the beet outlook this spring. Some 6,000 acres of beets have been seeded, and by the close of the present campaign an extra thousand acres will have been planted. The seeding weather has been ideal, the ground working up in fine condition and early beets germinating.
